The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit futurelearn.com/proof-of-learning/certificate-of-achievement.

This certificate represents proof of learning. It is not a formal qualification, degree, or part of a degree.

SAMSUNG

Not a School

Federico Chiaffredo

has completed the following course:

SOLVING INEQUALITY IN EDUCATION **SAMSUNG**

In this online course you developed practical skills and technology know-how to help you become an educator and tackle inequality in education. You reflected on your own learning journey; identified tangible actions that can contribute to solving the issue; discovered how to communicate effectively, collaborate with others, think critically and formulate a creative solution. Plus, picked up tips and tools to enter your idea for change into Samsung's tech for good competition.

STUDY REQUIREMENT

2 weeks, 2 hours per week

LEARNING OUTCOMES

- Reflect on your own learning journey and understand how you can embrace technology to become an educator too
- Identify tangible actions that you can take to contribute to solving this real world problem
- Develop practical skills on how to communicate effectively, collaborate with one another, express your creativity and even think critically

SYLLABUS

- **Week 1** covers the different approaches to education, the importance of developing an education network, how learning makes us human and the process of radical reimagination.
- **Week 2** covers globalisation in education and the inequality gap, the role of technology in education and how we can empower others to share their knowledge and learn through different means.
